

CATHOLIC SCHOOL

TAKE ANOTHER LOOK

As we begin the 2006-07 school year, 250 students will be served by the Catholic School Voucher Program.

Myth: Research about the effectiveness of vouchers is mixed and inconclusive.

Fact: “Research about vouchers is simply not mixed or inconclusive. The highest quality research consistently shows that vouchers have positive effects for students who receive them. The results are only mixed with regard to the scope and magnitude of the voucher’s benefits.”

The Office of Catholic Schools will be tracking and reporting the success of the 250 Catholic School Voucher Program recipients for the duration of the program. Vouchers were provided to 250 qualifying students in 26 archdiocesan Catholic schools encompassing grades Kindergarten through 12.

The Archdiocese of Denver’s Catholic Schools are an investment in the future of our children and our Catholic faith.
